WHO IT’S A GOOD FIT FOR
Super star tech talent looking to take the next step in their career
Existing people that want to progress their skills and study to degree level
Our Digital and Technology Solutions Professional Degree apprenticeship will develop your future senior IT professionals and leaders.

The learner journey below shows an example of the possible learning outcomes, and how it is typically arranged.

**Note:** Our Degree apprenticeship is available in three specialisms – Network Engineer, Software Engineer and Data Analyst. The example below is from our Software Engineer track. Speak to your Account Manager for more information.

**SOMETHING MISSING? NO PROBLEM.**

QA have a catalogue of over 1,500 training courses which you can bolt-on to your programme.

Bolt-on courses come at an additional cost, and can’t be funded using your levy/apprenticeship funding. They are available at a significant discount off of RRP for apprentices.

Have a large volume of over 30 people you want to sign up? QA’s apprenticeship solution experts can help you tailor your own technology programme.

Evidencing 20% off-the-job learning

We are the apprenticeship experts and can help advise you on how best to do this.

Our programme facilitates off-the-job learning, it’s been developed with online learning and on-the-job learning, as well as classroom training.
